

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Peter Saxon on October 29, 2009.

The application has been amended as follows:

In claim 17, line four, delete "positive type".

2. The following is an examiner's statement of reasons for allowance:

Kubota et al. (US Pg-Pub 2004/0072107) do not teach a method of producing an ink jet head, wherein an acrylic resin is exposed in two different steps: a first exposing step causing a hydrolytic reaction of a carboxylic anhydride in the acrylic resin and a second exposing step causing a main chain decomposition reaction of the acrylic resin.

There is no prior art teaching that would motivate one of ordinary skill in the art at the time of the invention to modify Kubota et al. and obtain the claimed invention of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1795
